

Our Canvas Colors

We would like to be the Rental Stadium Seat Provider for your university or college athletic program or special events...please notice our great color choices. If you don't see just the right one for your school or organization, we can often get a batch dyed for you.

Please note that colors can be displayed on computer monitors with differences to the original color swatch and can also print on your computer printer differently than it shows on the monitor. Please call if you have any questions about exact color matching!
